CRAMCO
CASUAL DINING

CATALOG 2026

About Us

Established in 1949, Cramco has built a strong reputation for excellence in casual dining furniture. Known for high-quality craftsmanship, you can find a diverse range of products, including metal, wood, glass, faux marble, and sintered stone tabletops. With a commitment to efficiency and customer satisfaction, Cramco ensures that its products are readily available for immediate delivery through its trusted distribution partner, Sunset Trading.

Founded in 1992, Sunset Trading has become a trusted leader in the home furnishings industry. You have access to a diverse selection of high-quality dining, bedroom, living room, reclining, and slipcovered furniture, blending functional design with timeless craftsmanship. With a strong focus on efficiency and customer success, Sunset Trading offers rapid turnaround times and flexible ordering options, so you can grow your business without the need for full-container purchases.

Through this partnership, Cramco's products are distributed by Sunset Trading, allowing you to take advantage of their strengths in customer service and distribution to better serve your customers!

Square Gray Faux Marble/ Black End Tables (22 x 22 x 24H)

SINTERED STONE

Sintered Stone is the latest technology in ultra-large size, stone look slab made using natural components, including quartz minerals, clays, feldspar, silica, natural mineral and pigments. It is superior to traditional quartz, granite and marble stone slabs in a number of ways including being stain, scratch and heat resistant.

The mineral composition and stone particles are carefully selected for their quality, color, and texture. It is made of 100% natural minerals which are pressed by extremely high pressure (over 3900 PSI or 42,000 tons of weight) and fired (over 1,200°C - 2,000°F) in a kiln. This is exactly what marble and granite experienced thousands of years before they were formed.

When the production process is complete, the particles are permanently and firmly bonded together without the need for resins or adhesives, perfectly recreating the texture and feel of precious natural stone. This gives the product outstanding physical and mechanical properties in terms of compaction, resistance, and durability.

MARBLE GLASS

Marble glass table tops blend beauty and durability through a unique manufacturing process. Each piece begins with a high-quality, tempered glass surface, carefully selected for clarity and strength. A printed faux marble paper is then applied, replicating the natural veining and depth of real marble.

To ensure lasting brilliance and protection, the surface is sealed with a premium poly clear coating. This process not only enhances the luxurious appearance but also provides a smooth, easy-to-clean, and scratch-resistant finish. The result is a stunning, maintenance-friendly table top that captures the timeless elegance of marble with the durability and practicality of glass.

TEMPERED GLASS

All Cramco Glass Table tops are **Tempered**, meaning its a type of safety glass that's stronger and more durable than regular glass. It's made by heating regular glass to high temperatures and then rapidly cooling it. This process creates a balance of tension and compression that makes the glass stronger and less likely to break.

What are the benefits of tempered glass?

Safety: Tempered glass shatters into small, blunt pieces instead of sharp shards, reducing the risk of injury

Durability: Tempered glass is more resistant to thermal stress and impact

Strength: Tempered glass can be up to five times stronger than regular glass
